Arredare gli interni è palcoscenico della vita privata, quello sfondo dove ogni ambiente permette il cambiamento. Una casa non è una questione di mattoni e cemento, ma di amore!

Forme, colori e accessori ,svelano gran parte del carattere di ogni uomo, proprio per questo nulla va lasciato al caso. Ogni dettaglio renderà unico il vostro progetto e darà personalità alla vostra casa. Le porte della collezione EXEA , 100% progettate e prodotte in Italia, offrono soluzioni d'arredo funzionali e di design per la separazione degli spazi, permettendo di creare ambienti dove poter vivere esperienze emozionanti ed accoglienti.

Forti della nostra pluriennale esperienza operiamo nel Mondo realizzando chiusure per interni rivolte a costruzioni residenziali, ville, strutture pubbliche e Hotel di lusso.

Il processo produttivo di Exea , si traduce in sistemi di risparmio energetico, utilizzo di fonti di energia rinnovabili , minimizzazione dello scarto e conseguente controllo delle emissioni, utilizzo di legname proveniente da coltivazioni impostate sulla forestazione programmata e impiego di finiture ecologiche. Ecco perché le nostre porte hanno un cuore!

To furnish interiors is a stage of the private life, that background where each room allows changing.

A house is not a matter of brick and concrete, but love!

Shapes, colours and accessories, reveal most of each man's character, and for this reason nothing is left by chance.

Every detail will make unique your project and give personality to your home.

The doors of collection EXEA, 100% planned and produced in Italy, offer design solutions that are both stylish yet functional for the separation of spaces, allowing to create an environment where you can live emotional and welcoming experiences.

Strong of many years' experience, we operate all over the world by producing interior doors for residential constructions, villas, public structures and luxury hotels.

The production process of Exea can be translated to systems of energy savings, use of renewable energies, minimal discards and therefore controlled emissions with usage of wood coming from programmed, ecological forests.

This is why our doors have a heart!

Décorer l'intérieur est une étape de la vie privée, cet arrière-plan où chaque environnement permet le changement.

Une maison n'est pas une question de brique et de ciment, mais l'amour!

Les formes, les couleurs et les accessoires révèlent une grande partie du caractère de chaque homme, C'est pourquoi rien n'est laissé au hasard. Chaque détail rendra votre projet unique et donnera de la personnalité à votre maison. Les portes de la collection EXEA, 100% conçue et fabriquée en Italie, offrent solutions d'ameublement fonctionnelles et de design pour séparer les espaces, vous permettant de créer des environnements où vous pourrez expérimenter des expériences passionnantes et accueillantes.

Fort de nos nombreuses années d'expérience, nous travaillons dans le monde en faisant des portes intérieures pour les bâtiments résidentiels, les villas, les installations publiques et les hôtels de luxe. Le processus de production d'Exea se traduit par des systèmes d'économie d'énergie, l'utilisation de sources d'énergie renouvelables, la minimisation des déchets et le contrôle des émissions, l'utilisation du bois à partir de cultures cultivées sur des forêts programmées et l'utilisation de finitions écologiques. C'est pourquoi nos portes ont un coeur!

PANTOGRAFATURA / PANTOGRAPH / PANTOGRAPHE

Il metodo **EASY**, con una gradazione di profondità semplice ma decisa, rivela incisioni leggere e moderne abbinabili ad ogni tipo di porta laccata.

The **EASY** method, with a simple but decisive degree of depth, reveals light and modern engravings that can be matched to any kind of lacquered door.

La technique **EASY**, simple mais décisive, révèle des incisions légères et modernes qui peuvent être réalisées sur tous les modèles laqués

PANTOGRAFATURA / PANTOGRAPH / PANTOGRAPHE

Il metodo **PLUS**, realizzata con incavi profondi ed armoniosi, per donare ai disegni forme definite e decise abbinabili ad ogni tipo di porta laccata.

The **PLUS** technique, realized with deep and harmonious engravings, in order to give drawings some rather defined shapes that can be paired with any type of lacquered door.

La technique **PLUS**, avec ses rainures profondes et harmonisés, donne vie à un style ferme qui peut être réalisé sur tous les modèles laqués
